

Taking the guesswork out of ear health

OtoSight
Middle Ear Scope

Did you know that 4 out of 5 children will experience at least one painful ear infection?

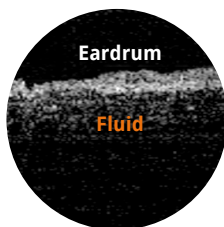

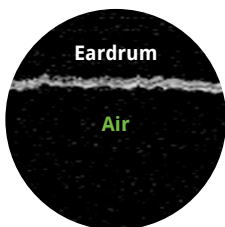

...and with current technology 50% are misdiagnosed?

- ▼ OtoSight offers a quick and comprehensive in-office scan that objectively assesses middle ear fluid, the determining factor in diagnosing middle ear infections.
- ▼ The technology in OtoSight has a 90%+ accuracy in determining the presence or absence of fluid in the middle ear, even in the presence of significant wax.

OtoSight
Middle Ear Scope

OtoSight sees through the eardrum using advanced light-based technology that is harmless and painless.

Take the guesswork out of ear health!
Ask your health care provider today about the OtoSight Middle Ear Scope.
